How To Use

User Manual

Power on: Remove the headphones from the charging case and the headphones will automatically power on.

Power off: Put the headphones into the charging case, and the headphones will automatically power off.

Earphone pairing: Forced pairing of left and right ears, automatic pairing without operation.

Pairing

Single Earbud Connection

1. Take out only one of the headphones from the charging Case.

2. Open the Bluetooth on your phone, search for "AWEI OWS T95", and click on pairing to connect. (After successfully connecting to the phone, hear the prompt sound "Connected")

Double Earbuds Connection

1. Take out the two earphones from the charging case, and the white light and ice blue light will flash alternately. The two earphones will automatically turn on and interconnect. After left earbud connected to right earbud, the main earphone's white light and ice blue light will flash alternately, and it will automatically enter pairing mode. (Indicates that the earbuds are in search mode and can be connected by the phone or other Bluetooth devices.).

2. Open your phone or other Bluetooth device, search for "AWEI OWS T95", and click on your phone to pair and connect. (When pairing is completed, you will hear "Connected")

4

How To Use

3. Automatic reconnection: It will re-connect automatically to paired devices. (Premise is that devices' Bluetooth is on and earbuds paired record still exist.)

Note:

1. When this device leaves the factory, both earphones are paired, so when you receive the headphones (two), you only need to take them out of the charging case to use.

2. If the two earbuds can't pair automatically, place the left and right earphones in the charging case, close the charging case, and then take them out. The left and right earphones will be forced to pair automatically without any other operation.

3. After left earbud connected to right earbud successfully, the white light and ice blue light of the main earphone will flash alternately, and you can connect to the phone for use. (If pairing is unsuccessful, please put the earphones back into the charging case for resetting before taking them out for operation).

Note:

When earbuds connected phone and you find one earbud no sound, you could turn off bluetooth on phone and put earbuds back to charging case. Then take them out again, these two earbuds will paired successfully within 10 seconds, the master earbud indicator flashes quickly, and the slave earbud flashes blue light per five seconds. You could follow previous step 1 and step 2 to connect your phone.

5
