

INSTRUCTION MANUAL

Nugget ICE MAKER

THANK YOU FOR CHOOSING OUR ICEMAKER
PLEASE READ THE MANUAL CAREFULLY BEFORE OPERATING

Made in China

Safety Notice

In order to avoid any accidents, please refer to following operation:

1. Disconnect power before servicing.
2. Do not pull directly on wire when plugging or unplugging the unit.
3. If ice is abnormal, please call the seller.
4. It is normal for the compressor and condenser surface to reach temperatures between 70°C and 90°C during operation and surrounding areas may be hot. Please don't touch it.
5. Due to fast freezing, ice cubes may appear "Cloudy". This is trapped air in the water and it will not affect quality or taste of ice.
6. When out of use, please open the drawer at least 2cm to allow for air circulation and avoid any metallic components becoming rusted.
7. This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
8. Children shall not play with the appliance,
9. Cleaning and user maintenance shall not be made by children without supervision.
10. If the supply cord is damaged; it must be replaced by the manufacturer, its service agent or a similarly qualified person in order to avoid a hazard.
11. Please according to local regulations regarding disposal of the appliance for its flammable blowing gas. Before you scrap the appliance, please take off the doors to prevent children trapped.
12. This appliance is intended to be used in household and similar applications such as
 - staff kitchen areas in shops, offices and other working environments;
 - farm houses and by clients in hotels, motels and other residential type environments;
 - bed and breakfast type environments;
 - catering and similar non-retail applications.
13. Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
14. Children aged from 3 to 8 years are allowed to load and unload refrigerating appliances.
15. Opening the door for long periods can cause a significant increase of the temperature in the compartments of the appliance.
16. Clean regularly surfaces that can come in contact with food and accessible drainage systems.
17. Clean water tanks if they have not been used for 48 h.
18. If the refrigerating appliance is left empty for long periods, switch off, defrost, clean, dry, and leave the door open to prevent mould developing within the appliance.
19. WARNING: When positioning the appliance, ensure the supply cord is not trapped or damaged.
20. WARNING: Do not locate multiple portable socket-outlets or portable power supplies at the rear of the appliance.
21. WARNING: fill with potable water only or connect to potable water supply only.
22. WARNING – Keep ventilation openings, in the appliance enclosure or in the built-in structure, clear of obstruction.
23. WARNING – Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
24. WARNING – Do not damage the refrigerant circuit.
25. WARNING – Do not use electrical appliances inside the food storage compartments of the appliance, unless they are of the type recommended by the manufacturer.
26. Warning: Risk of fire / flammable materials, taking care to avoid causing a fire by igniting flammable material.

27.WARNING – The new hose-sets supplied with the appliance are to be used and that old hose-sets should not be reused.

Description

1	Overfill outlet	6	Ice outlet	11	Back top lid
2	Icefull sensor	7	Ice basket	12	Handle
3	Suction mouth	8	Control panel	13	Middle Frame
4	Water tank	9	Front shell	14	Back shell
5	Drain plug	10	Front top lid (AC model,it is transparent clear,single layer, DC is double layer)	15	Ventilation cover

Specifications

Daily Ice Output :	12kg / 24 hours
Ice Shape:	nugget
Ice Storage Capacity :	600g
Compressor High efficiency CFC free	R134a (DC)
Water Reservoir Capacity :	1.7Litres
Dimensions(W*D*H):	340*240*370mm
Power cord:	DC: 12V car adapter

Function

Short to 4minutes to enjoy ice(room temperature around 20℃ ,water temperature around 12℃)

Super big viewing window.

Ice full alarm

add water alarm

Nugget shaped ice

With handle for easy movement

Auto clean

Before/First Use of Your Ice Maker

1. During transportation, the incline angle of the cabinet should not be over 45° .Do not turn the ice maker upside down. As this may damage the compressor and sealed system.
2. Remove all packing material and carefully check your ice maker to ensure it is in good condition and that there is no damage to the ice maker or power cord and plug.
3. The ice maker should be placed horizontally on a level surface. To ensure proper ventilation for your ice maker allow 150mm of space at the top, the back and on each side. Do not install the ice maker near an oven, radiator, or any other heat source.
4. Before using the ice maker for the first time, please wait 2 hours after positioning it, and keep the front lid open for at least 2 hours
5. Ensure that the voltage indicated on the ice maker corresponds with the voltage in your home.
6. Pure water is not allowed to be used on this unit, spring water is recommended.

Control Panel Operation

	Press it to turn unit on
	This light will come on with a long noise 'DI' noise. You will need to add water and restart the unit
	It lights up when the unit is on ice making
	It lights up the ice storage is full of ice
	Press it to turn unit off

Operating Instructions

Step 1.

Open the lid and fill the water reservoir with water.

Note: Make sure the water level in the water reservoir is not over bottom of the ice basket.

Step 2. Connect to the power.

Step 3.

Press  button to turn unit on. The ice maker begins to work.

Note: the ice will come out several minutes after start, the ice at the beginning is soft and wet.

Step 4

Press  button to stop the machine.

Step 5

Long press  button for 5 seconds to start the auto clean function at standby mode

Step 6

Pull the silicon drain insert in the water tank to drain water

Caring

- 1.Clean the inner liner, ice collecting tray, water box, ice shovel and evaporator frequently. When cleaning, unplug the unit and remove the ice cubes. Use a diluted solution of water and vinegar to clean the inside and the outside surface of the ice maker. Do not spray ice maker with chemicals or diluted agents such as acids, gasoline or oil. Rinse thoroughly before starting.
- 2.Keep ventilation openings in the appliance enclosure, or in the built-in structure, clear of obstruction. Do not use mechanical devices or other means to accelerate the defrosting process, other than those recommended by the manufacturer.
- 3.Always use fresh water before starting ice production either at initial installation or after a long shut-off period.

Troubleshooting

Problem	Possible Reasons	Suggested Solutions
The compressor works abnormally with a Buzzing noise.	The voltage is lower than recommended.	Stop the ice maker and do not restart until the voltage is normal.
	The compressor is hurt during transportation	Stop right away, and keep it on a flat surface for 24h, then restart
ADD WATER indicator lights up	The water is not enough	Fill water
	The pump is blocked	Clean the water pump after take it out
	The pump is broken	Replace pump
Indicator lights on display are not on.	Blown fuse/ No power.	Replace fuse / Turn power on
Unit works correct, but no ice comes out	Leakage of gas	Call for service

Correct Disposal of this product

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent possible harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To return your used device, please use the return and collection systems or contact the retailer where the product was purchased. They can take this product for environmental safe recycling.
