

# INSTRUCTION MANUAL

**PRODUCT:** HUNTER Mosquito Trap

**MODEL:** G05

**Input:** AC220-240V 50/60Hz

## INTRODUCTION

Please take a few moments to carefully read through this manual. Correct maintenance and operation of this machine will provide the best possible performance.

Remove flying insects without the use of chemicals, sprays or liquids. It uses UV-A LEDs to attract light sensitive flying insects such as mosquitoes, gnats, flies and moths. Once attracted to the device, the suction fan pulls them into the collection box, trapping them until they dehydrate and die. Ideal for bedrooms, living rooms, children rooms, sitting rooms, home kitchens, offices and anywhere that needs to be kept clear of flying insects.

## IMPORTANT SAFETY INSTRUCTIONS

1. The appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.
2. Household and indoor use only.
3. Check the local voltage before operating.
4. Keep away from flammables.
5. Keep the appliance and its cord out of reach of children less than 8 years.
6. Do not use in barns, stables or similar places.
7. Do not use in locations where flammable vapor or explosive dust is likely to exist.
8. Unplug the appliance before cleaning.
9. In the event of an operating problem, stop using the device immediately.
10. Never try to repair the device. There are no user-serviceable parts inside the device. Refer to an authorized dealer for service and/or spare parts.

## **SAFETY TIPS**

1. A service agent/qualified technician should carry out installation and any repairs if required. Do not remove any components or service panels on this product.
2. Always switch off and disconnect the power supply to the appliance before cleaning.
3. Install the appliance out of the reach of children.
4. Never insert hands or other objects into the appliance while it is connected to the power supply.
5. Never use near flammable objects.
6. Keep all packaging away from children.
7. If the plug is damaged, it must be replaced by authorized dealer or a recommended qualified technician in order to avoid a hazard.

## **HOW TO USE**

1. Plugged into a power source.
2. The light will come on and the fan starts to work.
3. If you do not use the appliance for an extended period, remove it from the electrical socket.

## **POSITIONING AND GUIDANCE FOR USE**

1. For best catch results, it is recommended to keep the unit away from competing light sources. Catch rate will be higher at night.
2. Recommended to place it not higher than 1.5m from the floor, because mosquitoes are always flying in the low place.
3. Away from places at least 1m where food will be prepared or presented.
4. Away from flammable liquids or gases. **DANGER OF EXPLOSION.**

## **CLEANING & MAINTENANCE**

1. Open the collection tray to clean it every 1-2 weeks or as needed.
2. Beware: Never immerse the appliance in water or any other liquid!
3. Clean the outside of the appliance with a damp cloth (water with mild detergent).
4. Never use aggressive cleaning agents or abrasives. Do not use any sharp or pointed objects. Do not use petrol or solvents! Clean with a damp cloth and detergent if necessary. Do not use abrasive materials.
5. Ensure the unit is completely dry before reconnecting it to the power supply.

**DISPOSAL:** Do not dispose this product as unsorted municipal waste. Collection of such waste separately for special treatment is necessary. This product must not be disposed together with the domestic waste. This product has to be disposed at an authorized place for recycling of electrical and electronic appliances. By collecting and recycling waste, you help save natural resources, and make sure the product is disposed in an environmental-friendly and healthy way.
